Executive Summary

- Self-motivated professional with 3.7 years of experience working in Responsive Web applications.
- Proposed technical feasibility solutions for new system designs and suggested options for performance improvement of technical components.
- Participated in all phases of system development life cycle, from requirements analysis through system implementation and testing.
- Worked in Agile-driven environment to effectively maintain project timelines.
- Strong team player with excellent communication and collaborative abilities.
- Expertise in various programming languages like Core Java, JavaScript.

Technical Skills

Languages & Technologies	Core Java, React JS, Node Js, Express, MySQL, MongoDB, Unix
Frameworks	Appzillon, Visual Studio, MySQL Workbench, Eclipse
Tools	Apache-tomcat, WinScp, Veracode
Web technologies and Scripting Languages	CSS3, HTML5, JavaScript, Bootstrap

Key Skills:
- Good Communication
- Adaptability
- Smart Working with right attitude
- Quick Learner

Educational Qualification
- B.E in Computer Science from Acharya Institute of Technology.

Work Experience

- **Testy antra Software Solutions** as Software Engineer from Nov 2018 to till.

Projects

1. Canara Bank (June 2019 –December 2019)

Client Organization	1. I-Exceed Technology Solutions
Tools and Technologies	JavaScript, SQL, Appzillon, MySQL Workbench.

Project Description: Canara Bank is one of the largest Indian government owned banks. It is under the ownership of Ministry of Finance, Government of India. It is headquartered in Bengaluru. It was established at Mangalore in 1906 by Ammembal Subba Rao Pai and later the government nationalized the bank in 1969.

My Responsibilities:

- Code optimization and code reviews.

- Developing features using Appzillon Framework.

- Fetch Records from SQL and display on UI.
- Take Inputs from UI and Store into Database.
- Performed Sanity Testing and Veracode Testing.

2. TSB-LMS (Lead Management System) (Jan 2020 – Aguste 2020)

Client Organization	1. I-Exceed Technology Solutions
Language and Technologies	JavaScript, SQL, Appzillon, MySQL Workbench.

Project Description: TSB Bank plc is a retail and commercial bank in the United Kingdom and a subsidiary of Sabadell Group. In this Application an Employee of the bank can search for the customers. A customer can be assigned to Leads. In Customer Interaction Component we can see the list of Customers assigned to particular Leads or Partners.

My Responsibilities:

- Worked on UI Design of Product Portfolio, Customer Interaction, Customer Opportunity module.
- Handled user login.
- Maintained code modularity to reuse code with required coding standards.
- Worked as an Active team member in delivering requirements as sprint timelines.
- Used JavaScript for Validation.
- Performed Sanity Testing and Veracode Testing.

3. LMS (Learning Management System) (December 2021 - till)

Language and Technologies	Html5, Css3, MUI, ReactJs, NodeJs, MongoDB

Project Description: LMS is a Learning Management System Application. The application will automate the entire learning and mentoring process.
There are 3 major users of the application – Admin, Mentor, Employee.

1. **Admin** – As soon as Admin loges-in, he/she is prompted to add, edit and delete mentors.

2. **Mentor** - As soon as the mentor logs-in, he/she is prompted to reset the password. This will be successful only if the auto-generated password (in the email) is entered.

3. **Employee** - As soon as the employee/trainee logs-in, he/she is prompted to reset the password. This will be successful only if the auto-generated password (in the email) is entered.

My Responsibilities:
- Worked on UI design.
- Developed all the endpoints.
- Generated JWT Token, Password hashing and Authenticate the users.
- Sending the required response to Front-end
- Created modal Schema for Database.
